# SPLITS by CARRIER

It's about time.

## It's all about accessorizing your home.

It's beautiful. This is the ultimate design in air conditioning systems. All the finest indoor doors are no longer in the grid that can gather dust and grime. A Flat Panel Door, with the elegant, intense design, is an emblem of your home or place of business.

## It's all about intelligent cooling.

The Carrier Xpression is not just form but substantial too. Here is where engineering is at its best.

It has a Freez Super Coils and the Carrier's Low Noise Fan Surface that spreads out the cool that

has been put out of any room. Minimize that noise. Does the still form also add additional heat

and sign off the coils on the Xpression's hydraulic expansion. The Turbo Cool and Powerful Blade

features make the coil tough but that cooling system will be there all around.

## xpression Your ultimate split.

There is nothing better than having you own the best. Nothing is as good as the best in technology. Nothing else is as really about cooling. What may be regarded as the best air conditioning system is the best reward you can give yourself.

## It's all about breathing clean.

Not just a lot of cool air but a lot of clean, cool air. The Carrier Xpression has a exclusive feature designed to remove that. A Recirculation Air Filter removes dust, harmful microorganisms and pollen. A High-Capacity Filter removes harmful gases and chemicals in the air. A Carbon Filter eliminates smoking odor and cigarette smoke.

An Air Movement Duct Collector catches airborne allergens like dust, pollen and dog dander. And an Anti-Bacterial Blower Fan and Drain Pan inhibit the growth of bacteria and fungi.

## It's all about rewarding yourself.

The Carrier Xpression is in itself the ultimate reward of quality in air conditioning. And no one deserves this more than yourself. So go ahead and reward yourself. The Carrier Xpression is truly your own reward.

# Little dog with big job

By David Jackson

THEY'VE BEEN CALLED DOGS OF WAR for years, but the new breed of service dog is making a name for itself in the world of the visually impaired.

The National Guide Dog Association (NGDA) has a long history of training dogs to assist the blind, deaf, and physically handicapped.

The NGDA's first dog, a pointer named "Duke," was trained in 1929. Since then, the organization has trained thousands of dogs to assist people with disabilities.

# MILF, MNLF start reunification talks

MANILA, 11 (AP) — MILF and MNLF leaders have agreed to start talks on reunification of Mindanao, a peace process that has been stalled for years. The talks are expected to start in the near future.

The MILF and MNLF have been warring since the late 1980s. The MILF is a Muslim separatist group, while the MNLF is a Christian nationalist group. The two groups have been fighting for control of Mindanao, a large island in the Philippines.

The talks are being mediated by the United Nations. The UN has been trying to bring the two groups to the negotiating table for years. The talks are expected to be a long and difficult process.

## 9 small mining financiers in T'boli charged

MANILA, 11 (AP) — Nine small mining financiers in T'boli have been charged with illegal mining activities. The charges are part of a larger investigation into illegal mining in the region.

The financiers are accused of providing funds to illegal miners. They are also accused of helping the miners to evade taxes and other regulations. The charges are being brought by the Department of Justice.

The financiers are being charged with various offenses, including illegal mining, tax evasion, and conspiracy. They are being charged with both civil and criminal offenses.

# Kidnap victims' parents: Think again

MANILA, June 10 (AP) — Parents of the 17 children kidnapped by a militant group in the Philippines last month should not expect a quick return of their children, a Philippine government official said Tuesday.

The official, who spoke on condition of anonymity, said the government is not sure if the children are still alive. He said the government is not sure if the children are still alive. He said the government is not sure if the children are still alive.

# Skills, hope for young 'housemates'

MANILA, June 10 (AP) — A group of young people, some of whom were once victims of kidnapping, are now living together in a house in Manila, sharing their experiences and skills. The group, known as the 'housemates', are now living together in a house in Manila, sharing their experiences and skills.

# Fewer crimes in Manila during Holy Week

By Margen C. Ordo

MANILA, Philippines — Crime rates in Manila dropped significantly during Holy Week, with a 10 percent decrease in overall incidents compared to the previous week, according to the Philippine National Police (PNP). The PNP reported that the number of crimes in Manila during Holy Week was 1,200, down from 1,320 in the week before. The most common crimes reported were theft and drug possession, with 450 and 300 cases respectively. The PNP attributed the decrease in crime to the observance of Holy Week and the presence of law enforcement officers in the area.

## 1st Kotusko conference held April 22-29

MANILA, Philippines — The 1st Kotusko conference was held from April 22 to 29 in Manila. The conference was attended by representatives from various countries and organizations, including the United Nations, the World Bank, and the Asian Development Bank. The conference focused on the theme of "Building a Sustainable Future" and discussed various issues related to sustainable development, including climate change, poverty reduction, and social justice.

# Analyst bares details of war plans vs Iran

WASHINGTON, April 16 (AP) — A senior U.S. defense official has revealed details of a U.S. war plan to destroy Iran's nuclear facilities, a move that could trigger a full-scale conflict with the Islamic republic.

The official, who spoke on condition of anonymity, said the plan is to use a combination of air and ground forces to destroy Iran's nuclear facilities, including its enrichment plants and research reactors.

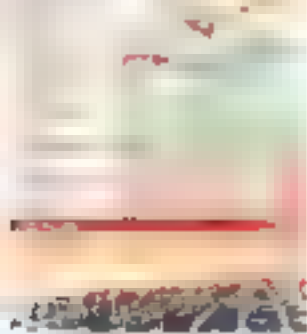

The plan is part of a broader U.S. strategy to prevent Iran from developing nuclear weapons, which the United States and other nations believe could threaten global security.

The official said the plan is to use a combination of air and ground forces to destroy Iran's nuclear facilities, including its enrichment plants and research reactors. The plan is part of a broader U.S. strategy to prevent Iran from developing nuclear weapons, which the United States and other nations believe could threaten global security.

# Iran warns of regional instability if attacked

TEHRAN (AP) — Iran's foreign minister said Saturday that the Islamic Republic would not be responsible for regional instability if it were attacked by the United States or its allies. He said the Islamic Republic would not be responsible for regional instability if it were attacked by the United States or its allies.

U.S. officials say Iran is a major threat to the security of the Persian Gulf. The Islamic Republic has been accused of supporting terrorism and of having a nuclear weapons program.

Figure 1 consists of two scatter plots. The left plot shows a positive correlation between the number of children and the number of children in the household. The right plot shows a negative correlation between the number of children and the number of children in the household.

A schematic diagram of a three-dimensional coordinate system with axes labeled  $x$ ,  $y$ , and  $z$ . A rectangular prism is shown in the first octant, with its edges parallel to the axes. The prism is divided into two parts by a vertical plane parallel to the  $yz$ -plane. The left part is labeled  $E_1$  and the right part is labeled  $E_2$ . The top surface of the prism is labeled  $E_3$ . The bottom surface is labeled  $E_4$ . The front face is labeled  $E_5$  and the back face is labeled  $E_6$ .

### No early end in sight to Iraq political crisis

By [Name] in Baghdad  
The political crisis in Iraq has no early end in sight, according to a senior US official. The official said that the US and its allies are still working to resolve the crisis, but that it will take time. The official also said that the US is committed to supporting the Iraqi people and their elected government.

## Aces subdue Barako

By Dan Lim

MANILA (PDI) — The Aces defeated the Barako Bull Energy 101-87 in a quarterfinal game of the PBA Cup on Sunday. The Aces, coached by Tim Cone, led from the first quarter and never trailed. They scored 28 points in the first quarter, 22 in the second, 20 in the third, and 31 in the fourth. The Barako, coached by Tim Cone, scored 22 points in the first quarter, 20 in the second, 20 in the third, and 25 in the fourth. The Aces' victory was their fourth in the quarterfinals. They will face the San Miguel Beermen in the semifinals on Tuesday.

## Debate on cement perks heats up

Production capacity seen falling short of rising demand by 47

By David P. Swafford

As the cement industry gears up for a new round of expansion, the debate over whether to allow producers to receive special tax treatment for their investments has heated up. The industry is seeking to expand its production capacity to meet the growing demand for cement, but the federal government is concerned that such expansion will lead to increased competition for the same tax breaks.

# China firm to fast-track investment plan

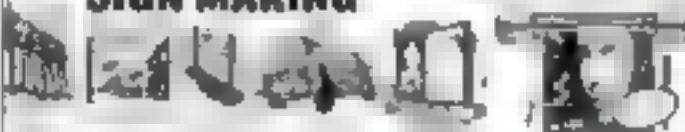

## Reviving Phalisco nickel complex

PHALISCO, Ore. — A Chinese company has agreed to buy a nickel processing plant in Oregon, a move that could help revive the local economy and create jobs. The plant, known as the Phalisco Nickel Complex, has been dormant for years. The new owner, a Chinese firm, plans to invest millions of dollars to restart operations. The plant has the potential to produce significant amounts of nickel, a valuable metal used in various industries. The investment is expected to create several hundred jobs in the local area. The plant's location in Phalisco, a small town in Oregon, is strategic for accessing local resources and infrastructure. The investment is seen as a positive development for the region, which has been struggling economically. The Chinese firm's commitment to the project is a sign of growing international interest in Oregon's natural resources. The investment is expected to be completed within the next few years. The plant's restart could have a significant impact on the local economy and the nickel market. The investment is a testament to the potential of Oregon's natural resources and the role of international investment in economic development.

# The forbidden art of Jay Pacena

Photographs

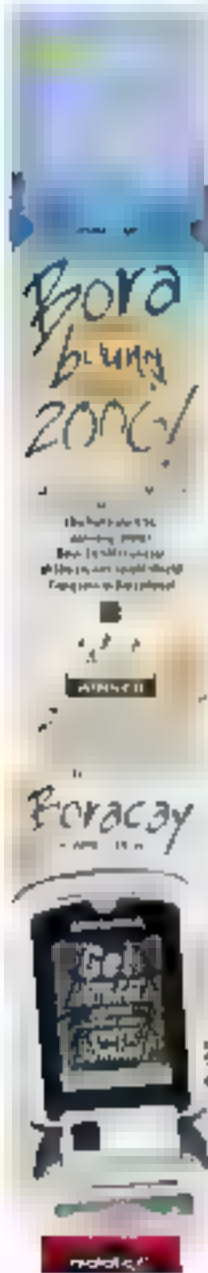

Every day and every night, Jay Pacena is a man of many faces. He's a quiet, shy, and somewhat reserved guy, but when he's in the mood, he's a wild, unrestrained, and completely unapologetic artist. He's a man who's not afraid to take risks, and he's not afraid to be different. He's a man who's not afraid to be himself.

But when he's in the mood, he's a wild, unrestrained, and completely unapologetic artist. He's a man who's not afraid to take risks, and he's not afraid to be different. He's a man who's not afraid to be himself.

He's a man who's not afraid to take risks, and he's not afraid to be different. He's a man who's not afraid to be himself.

He's a man who's not afraid to take risks, and he's not afraid to be different. He's a man who's not afraid to be himself.

He's a man who's not afraid to take risks, and he's not afraid to be different. He's a man who's not afraid to be himself.

1. The first step is to identify the problem. This involves understanding the current situation and the goals that need to be achieved.

**Pharmaceutical Industry**  
The pharmaceutical industry is a major contributor to the U.S. economy, with sales of over \$100 billion in 1998. The industry is heavily regulated by the FDA, which oversees the safety and efficacy of drugs. The industry is also heavily dependent on research and development, with significant investments in new drug discovery.

**A** REPORTER ON THE FRONT LINES of the war against the AIDS virus has learned the hard way that the best way to protect himself is to keep his distance. "I've learned that the best way to protect yourself is to not get involved," says Dr. Robert R. Schoen, a professor of medicine at the University of California, San Francisco, and a leading expert on AIDS. "You have to be objective and not get too close to the people you're studying."

Other U.S. experts have said that the U.S. should not be too concerned about the possibility of a nuclear war between India and Pakistan. They say that the U.S. should focus on the threat of terrorism and the proliferation of nuclear weapons.

### History repeated

Two decades after the Chernobyl disaster, the world is still learning from the accident. In 1986, the Soviet Union's nuclear industry was in a state of denial, and the accident was kept secret from the public. Today, the industry is more open, but the challenges remain. The Fukushima disaster in 2011 showed that even with modern safety measures, nuclear power can still pose significant risks. The industry must continue to improve safety and transparency to gain public trust.

The authors also discuss the importance of an ongoing dialogue between management and employees in order to ensure that the organization is able to respond to the needs of its customers and the market. The authors conclude that the most successful organizations are those that are able to create a culture of innovation and continuous improvement.

**Hand hygiene**

Hand hygiene is the most important measure to prevent the spread of infection. It should be performed before and after patient contact, after contact with body fluids, and after contact with contaminated surfaces. Hand hygiene should be performed using soap and water or an alcohol-based hand rub.

the first "major" anti-discrimination law was the 1964 Civil Rights Act, which prohibited discrimination on the basis of race, color, religion, sex, or national origin. This act was a landmark in the history of civil rights in the United States, as it was the first federal law to prohibit discrimination on the basis of race and color. It also established the Equal Employment Opportunity Commission (EEOC) to enforce the law.

When it comes to the subject of the 1980s, the author's tone is one of nostalgia. He describes the decade as a "time of great change and great achievement" and notes that it was a time when "the American dream was still alive and well." The author's tone is one of optimism and hope, suggesting that the 1980s was a time when the American dream was still alive and well.

Students in each class receive a photograph of the character and a list of names and nicknames, along with a list of the character's traits. Students are then divided into groups of four and assigned to the Main text. Students are then asked to read the text and discuss it in groups of four. The groups are then asked to discuss the character's traits and the character's role in the story. The groups are then asked to discuss the character's role in the story.

Students receive encouragement to look to Christ for the strength and help needed to follow the command to love the Lord God with all heart, mind, and strength, and to love their neighbor as themselves. The apostle Peter, writing about Jesus from Rome, exhorted Christians to love one another as they love themselves, and to love their neighbor as they love themselves (1 Peter 4:7-10).
